

Student1: Tanuj Rakesh Dave
NetId: tdave6

Student2: Heet Shirishkumar Parikh
NetId: hparik5

Description of Tasks:

1. We collaborated on Discord where we were able to work on a single project at the same time.
2. Tanuj worked on the game logic and implemented the threading part.
3. Heet managed to get done with the GUI and testing parts.
4. During, the entire time we were connected on Discord and discussed the working and logic of the game.
5. We also tried to debug the networking part and the entire code together.
